Why do we produce our insulation nonwovens from the same raw materials that we supply into the baby diaper and mattress industries?

Because we have set three major goals for ourselves:

- Full insulation performance that lasts up to 25 years
- Zero health risk
- up to 80% recycled material

TWE Thermal insulation solution

Did you know that in a single-family house insulated with TWE insulation nonwovens 6.000 recycled PET-bottles are assuring full insulation performance that lasts up to 25 years?

Features

- Fine fibres** ➤
- 100 % polyester fibres** ➤
- Up to 80 % recycled fibres** ➤
- Thermally bonded** ➤

Benefits

- Non-irritating/anti-allergic
- Recyclable (100 % PET)
- Odour Free
- No chemicals used, no formaldehyde
- Humidity and rot resistant
- Compressible with good recovery
- No inhalable dust generation
- Good indoor air quality - no emission of VOC's
- Class A+ according to French Regulations
- Full insulation performance that lasts minimum 25 years - guaranteed!
